

JOB OPENING
for
VOCATIONAL EVALUATOR

Project ReEntry is an outpatient brain injury rehabilitation program in the Galleria area in Houston. We specialize in the assessment and the treatment of clients who have experienced a traumatic brain injury or other neurologically-based injury or illness which may impair cognitive functioning.

REQUIREMENTS:

The current position that we are seeking to fill requires at least a Bachelors in rehabilitation or psychology. Experience with vocational assessment instruments a plus. We will train the right person to be a full-time evaluator. Applicants must have at least 3.0 overall G.P.A. C.V.E. will get you an immediate interview!

JOB DUTIES:

This position is responsible for administering and scoring a variety of interest and aptitude batteries. Some are practice-specific instruments designed to assess the closed head injury client. Work samples are also given and evaluated for each client. Reporting of test results in staffings with clients, families, and referral sources.

TRAINING:

This position will work closely in training with our current Vocational Evaluator & Dr. Pollock.

SALARY:

\$25,000 - \$40,000

(Depending on Degree/Certification/Experience)
